Arjun Kumar

Machine Learning Engineer

arjun.kumar@example.com | +91 90000 00001 | Chennai, India

Summary

Machine learning engineer with 3 years of experience building, training and deploying deep learning and NLP models in production. Strong in Python, model evaluation and data preprocessing.

Skills

Python, Machine Learning, Deep Learning, NLP, TensorFlow, PyTorch, scikit-learn, pandas, numpy, SQL, Git, Docker, AWS, REST API

Experience

• ML Engineer, DataNova Technologies (2023 - Present): Built NLP text classification models using PyTorch and scikit-learn. Performed data preprocessing and model evaluation on large datasets. Deployed models as REST APIs using Docker on AWS.

• Junior Data Scientist, InsightAI (2022 - 2023): Developed machine learning pipelines with pandas and numpy. Wrote SQL queries and managed code with Git.

Education

B.Tech Computer Science (AI), 2022 - CGPA 8.9

Additional

Strong teamwork and communication skills. Presented model results to stakeholders.
